be done to me according to your
word.” Luke 1:38

Filmmaking Tips

1. **Tell the story in one or two locations** you can go to for free.
2. **Hold your device steady.** Use a tripod or online instructions to avoid camera shake.
3. **Use good lighting.** Consider filming outside, which lessens the need for added lighting.
4. **Get close to your subject for better shots and sound.** Consider using an inexpensive lavalier microphone.
5. **Add background music or sound with online royalty-free music.** Be mindful of creative license rules.
6. **Vary your shots** (establishing shot, medium shot, close up). Research the Rule of Thirds.
7. **Capture "B-roll" footage** to add visual interest.

**Visit the Goodness Reigns Film School
for short how-to videos.**
